COMPANY OVERVIEW

Bello Hello delivers **cutting-edge Artificial Intelligence solutions** that transform how organizations operate. We specialize in **Generative AI, Large Language Models (LLMs), Voice AI, and Enterprise Automation** — enabling federal agencies to modernize citizen services, streamline operations, and achieve mission-critical objectives with unprecedented efficiency.

CORE COMPETENCIES

- Artificial Intelligence & Machine Learning
- Generative AI & Large Language Models (LLMs)
- Voice AI & Conversational Agents
- Intelligent Process Automation (RPA/IPA)
- Natural Language Processing (NLP)
- Enterprise Chatbots & Virtual Assistants
- Microsoft Azure & Power Platform
- Cloud Architecture (AWS, Azure, GCP)
- Data Analytics & Business Intelligence
- API Development & System Integration
- IT Modernization & Digital Transformation
- Cybersecurity & Zero Trust Architecture

DIFFERENTIATORS

- ✓ 100% U.S.-Based AI Development
- ✓ Real-Time AI with Sub-Second Response
- ✓ Secure, FedRAMP-Ready Architecture
- ✓ Agile Delivery with Rapid Prototyping
- ✓ Deep Microsoft Stack Expertise
- ✓ OpenAI & Anthropic Claude Integration
- ✓ Enterprise-Grade Voice AI Solutions
- ✓ Custom LLM Fine-Tuning Capabilities
- ✓ 24/7 Automated Citizen Services
- ✓ Human-in-the-Loop AI Governance
- ✓ Small Business Agility, Enterprise Quality
- ✓ Veteran of Fortune 500 AI Deployments

TECHNICAL CAPABILITIES

AI/ML Platforms

- OpenAI GPT-4 / GPT-4o
- Azure OpenAI Service
- Anthropic Claude
- Azure AI Services
- TensorFlow / PyTorch
- Hugging Face

Enterprise Systems

- Microsoft 365 / Teams
- Power Platform
- Dynamics 365 / Dataverse
- Salesforce
- ServiceNow
- SharePoint / OneDrive

Cloud & Data

- Microsoft Azure
- AWS / GCP
- Power BI / Tableau
- Snowflake
- SQL / NoSQL Databases
- Data Lakes / Warehouses

Development

- Python / Node.js
- React / TypeScript
- RESTful APIs / GraphQL
- DevOps / CI/CD
- Docker / Kubernetes
- Git / Azure DevOps

RELEVANT EXPERIENCE

Enterprise AI Meeting Assistant

Real-time AI assistant for Microsoft Teams meetings with voice recognition, automated transcription, action item extraction, and intelligent follow-up generation. Deployed for Fortune 500 client.

Intelligent Case Routing System

AI-powered customer service automation for Microsoft 365 support. Machine learning algorithms classify, prioritize, and route cases with 95%+ accuracy, reducing resolution time by 40%.

24/7 Voice AI Phone System

Conversational AI phone agents handling appointment scheduling, inquiries, and customer service. Natural language understanding with real-time voice synthesis. Handles 10,000+ calls/month.

Enterprise Workflow Automation

End-to-end automation platform integrating Salesforce, ServiceNow, SharePoint, and Dataverse. AI-driven document processing, automated approvals, and intelligent notifications.

COMPANY DATA

CERTIFICATIONS
